Roaches

M331 Victor Roach Pheromone Trap

*"PCOs told us the Roach Pheromone Trap worked so well that they needed a larger catch area for large infestations and different Roach species."
Michael Goldstein, Woodstream*

In addition to patented pheromone attractant to lure German Roaches from their harborage, NOW with a food attractant for American, Oriental and other Roach species.

- Controls and detects-not just a monitor.
- Traps nymphs, adults and their eggs.
- Allows containment and disposal of Roach contaminants.
- Trap has been designed with 3 entry points, a silicone surface to prevent escapes and low profile to fit into small, tight corners.
- Most accurate early warning and detection device available.
- Excellent tool for an IPM program.
- Backed by 5 years of research and field testing.
